

1. Fold in half (this side in) and re-open

2. Fold top corners down to center, then flip paper over

2. Fold top corners down to center, then flip paper over

7. Add tape or paperclip

7. Add tape or paperclip

6. Fold wings down and re-open

6. Fold wings down and re-open

5. Fold sides up, this side in

10. INNOVATE!
Change this plane to make it...

- Go the farthest
- Stay in the air the longest
- Do a loop
- Do a curve

9. EXPLORE!
What happens if...

- Only 1 wing is curled?
- More weight is added to the front? To the back?
- You throw the plane quickly? Slowly?

8. Curl wing tips up

8. Curl wing tips up

4. Fold (new) top corners down to center, then turn paper over

4. Fold (new) top corners down to center, then turn paper over

3. Fold triangle down
